JET

Silver

World Class Precision and Quality

Precision key blanks made of nickel silver have superior physical and mechanical properties with high tensile strength. This type of key blank has a stronger resistance to corrosion and wear, and presents an attractive appearance with its fine silver polish..

Jet's Silver Line meets the accuracy requirements for both master keying and duplication. For the master locksmith who originates new systems or maintains existing systems, using either accurate wheel type cutters or the new punches, all keys will be perfect every time.

The Silver Line key bows are coined, embossed and designed to create the appearance of the originals. They are polished to a fine finish using a special new process. Look for our black, gold and silver key blank box... it's your guarantee of the finest nickel silver key blanks available today.

Jet Key Machines... Precision Cuts Every Time!

*World Class
Precision and Quality*

SPECIAL FEATURES - MODEL 7060

- **Semi-Automatic...** the fastest way to cut a key.
- **Momentary Brush Switch...** it will stop when your hand is taken off the switch. Brush is made from nylon instead of steel wire and is safe for your hands.
- **Overhead light.**
- **Carriage Auto-Shutoff Safety Switch...** when lever is down for key loading or retrieval, cutter will automatically stop for operator safety.
- **Heavy Duty Construction...** 1/4 horsepower motor for fast reliable key cutting and many years of dependable service.
- **Cutter is made from M35 high speed steel.**
- **Four way jaws to accommodate many house keys, domestic and foreign car keys.** Machine will fit under the JET Key Tower.
- **Heavy duty cover for quieter operation.**
